

Election Manifesto – Manjunath K.N. Panel

GIBA Elections 2026–2028

"Inclusiveness, Transparency and Transformation"

We have a balanced team for the GIBA election for 2026–2028, with candidates from all IT segments — corporate business, distribution channel, retail market, and turnkey projects. Our motto is to bring harmony and coordination between all GIBA members, distributors, service centres and brand representatives to work together and support each other.

Key Priorities

1. Harmony Across All IT Segments

Bringing coordination between GIBA members, distributors, service centres, and brand representatives to work together and support each other in a competitive market.

2. Addressing Brand Representation

Tackling the absence of brand representatives and local stocking partners that is currently hurting the local IT industry.

3. Service Centre Expansion in South Goa

Fighting to establish authorised service centres in South Goa, where availability has been a long-standing challenge for members and customers.

4. Experienced, Inclusive Team

Panel drawn from corporate business, distribution, retail, and turnkey projects — ensuring every member's interests are represented.

5. GIBA Members First

Our commitment is towards making GIBA and its members' interests the top priority in every activity, event, and decision taken during the term.
